

Canterbury Resources Limited

Briggs ready to rig up

Canterbury Resources Limited (ASX:CBY) is a junior minerals explorer established in 2011, listed in 2019 and assessing large-scale copper-gold plays in the south-west Pacific region. The company has a number of active projects in PNG and Queensland. As highlighted in our note of 23-Aug, a return to drilling at the Briggs Project is now imminent with Africa Energy Resources (ASX:AFR) to fund a 3,000m RC drilling campaign focusing on the higher-grade central porphyry zone. The aim of the campaign is to progress Briggs to scoping study stage by perhaps mid-2022. We see this as a critical path item to deliver potentially material value accretion. With multiple drill-ready opportunities, the period FY22-FY23 could see tangible progress on resource definition and partnering across the portfolio. Through high working interests, the company has strong leverage to success. The increasing global demand for metals, particularly copper, should provide ready financing options in a post-COVID, growth economy.

Business Model

Canterbury is a junior minerals explorer established with the aim of generating early-stage opportunities for Cu-Au in the south-west Pacific region including northern Australia. The strategy is to identify tier-one exploration opportunities, define the commercial opportunity and seek partnerships to provide funding at the project level. The Briggs funding and partnering agreement can be considered the template for implementing this strategy and catalysing evaluation activity. Working assets is the critical path to value accretion, particularly in the current bullish copper market.

Set for a big quarter... Briggs drilling poised to commence

Canterbury has indicated the Africa Energy Resources (ASX:AFR) funded drilling campaign at the Briggs copper project is set to commence. Totalling some 3,000m over ~12 holes, the work programme should take about one month to complete, potentially delivering a material expansion and high-grading of the current resource attribution of 142.8Mt @ 0.29%. Drilling results and sampling results could underpin the commencement of a scoping study by perhaps mid-2022.

Valuation – a marginal upgrade

We model a risked NAV of A\$52mn (A\$0.43/share at the mid-point) to the portfolio against a **reference share price of A\$0.098/share**. It's worth highlighting that our valuation benchmarks and weightings are subject to significant change through exploration and evaluation activity. Positive drilling results at Briggs could materially enhance and upgrade the economic potential of the project, providing a mechanism to close the current discount and reset the share price base. We suggest that CBY represents an undervalued play, with significantly strong upside as a copper opportunity given the leverage of the portfolio to the metal via the Briggs asset in Queensland. The next 12-24 months could deliver transformational upside based on material increases and upgrades to existing resources across the portfolio.

Mining & Exploration

26th October 2021

Share Performance (12 months)

Upside Case

- Partnering options can be secured more rapidly and on better terms than expected
- Drilling results exceed expectations, particularly with respect to increasing the resource tonnages and grades
- Successful outcomes catalyse accelerated pre-development options

Downside Case

- Delays in securing partners also defers next phase evaluation and growth options
- Drilling results in particular fail to meet expectations
- COVID issues continue to negatively impact the timing and resumption of in-field activities

Set for a big finish to 2021

Whilst there was only limited field activity through the September quarter, corporately the company put in place a significant and strong deal to underpin the Briggs copper project. Africa Energy Resources (ASX:AFR) will fund Briggs work programmes for up to \$16mn to earn a 70% interest, on a staged basis out to Jul-2031. Critically, the drilling campaign about to commence could see the project enter a feasibility stage by mid-2022.

The company ends the review period with a healthy cash position (~\$1.13mn) to complement its financial carries at Briggs and Bismarck.

Exhibit 1: September quarter highlights and comments

Exploration and evaluation					
Briggs – CBY 100% Drilling is set to commence with the aim of the activity being to progress Briggs to a scoping study stage by perhaps mid-2022. A 'success case' should deliver a material expansion and high-grading of the current resource attribution of 142.8Mt @ 0.29%.	A binding term sheet with Africa Energy Resources (ASX:AFR) was executed with AFR to solely fund \$0.75mn of exploration capex before 31/07/23 as a precursor to beginning the earn-in phase. Through the earn-in phase AFR will have the right to assume up to a 70% JV interest for spending \$15.25mn over nine years, on a staged basis (to 31/07/31). Option phase activity is set to commence immently with a 3,000m RC drilling campaign, which is expected to comprise around 12 holes across the central prophry where higher grades have been encountered (Refer RaaS note – 23 Aug). The campaign is expected to take approximately one month to complete. In parallel, a soil sampling programme will be conducted over the northern, central and southern porphrizones.				
Wamum and Ekuti Range – CBY 100% In our scoping report (May-2021) we noted the "company is seeking a partner to fund the next stage of work at Wamum in particular a "resource definition drilling and scoping study proposal" over 15-18 months.	Ekuti Range - No field activity was undertaken through the review period with planning under way for a soil sampling programme over potential north-west extensions of the Otibanda and Waikanda lodes. Samples from the Idzan Creek and Wamum Creek deposits were subject to preliminary metallurgical testing, with encoraging metal recovery results from conventional processing methods. A "high-level evaluation of a potential stand-alone operation" has commenced and will consider both open-cut and underground options. Exploration opportunities continue to be considered.				
Bismarck – CBY 40% Rio Tinto Exploration (PNG) Limited holds a 60% JV interest with the conditional option to increase to 80%.	The company successfully completed a clay sampling programme aimed at "extending the surfamineral mapping of the lithocap zone". Interpretation of the results will underpin the planning for the next drilling phase.				
Corporate					
The Briggs deal provided additional working capital Major works at Briggs and Bismarck are fully funded through financial carries.	AFR has agreed to subscribe to 8.33mn new shares in CBY at 12cps, providing c.\$1.0mn of working capital as noted in the quarterly cashflow statements. AFR has also been granted 3mn share options exerciseable at 24cps, expiring on 31/12/23.				
The 'Peenam' acqusition remains on track	CBY has signed a binding term sheet for the acquisition of an application area (EPM 27756) – the Peenam Project – through the purchase of the holding company Neillkins Pty Ltd.				
	CBY considers the application area to be prospective for potentially large-scale Cu-Au porphyry deposits based on its evaluation of available physical and geophysical data. Due diligence will be completed once the tenement has been granted.				
Cash position as at 30-Sept remains robust	CBY holds a cash balance of ~\$1.1mn against a 3Q operating cost of \$0.33mn Exploration expenditure for the period was ~\$126k.

RaaS is the entity providing the authorised AFSL services to you as a retail or wholesale client.

What Financial Services are we authorised to provide? RaaS is

authorised to

- provide general advice to retail and wholesale clients in relation to
 - Securities
- deal on behalf of retail and wholesale clients in relation to
 - Securities

The distribution of this FSG by RaaS is authorized by BR.

Our general advice service

Please note that any advice given by RaaS is general advice, as the information or advice given will not take into account your particular objectives, financial situation or needs. You should, before acting on the advice, consider the appropriateness of the advice, having regard to your objectives, financial situation and needs. If our advice relates to the acquisition, or possible acquisition, of a particular financial product you should read any relevant Prospectus, Product Disclosure Statement or like instrument. As we only provide general advice we will not be providing a Statement of Advice. We will provide you with recommendations on securities

Our dealing service

RaaS can arrange for you to invest in securities issued under a prospectus by firstly sending you the offer document and then assisting you fill out the application form if needed.

How are we paid?

RaaS earns fees for producing research reports. Sometimes these fees are from companies for producing research reports and/or a financial model. When the fee is derived from a company, this is clearly highlighted on the front page of the report and in the disclaimers and disclosures section of the report.

We may also receive a fee for our dealing service, from the company issuing the securities.

Associations and Relationships

BR, RaaS, its directors and related parties have no associations or relationships with any product issuers other than when advising retail clients to invest in managed funds when the managers of these funds may also be clients of BR. RaaS's representatives may from time to time deal in or otherwise have a financial interest in financial products recommended to you but any material ownership will be disclosed to you when relevant advice is provided.

Complaints

If you have a complaint about our service you should contact your representative and tell them about your complaint. The representative will follow BR's internal dispute resolution policy, which includes sending you a copy of the policy when required to. If you aren't satisfied with an outcome, you may contact AFCA, see below. BR is a member of the Australian Financial Complaints Authority (AFCA). AFCA provide fair and independent financial services complaint resolution that is free to consumers.

Website: www.afca.org.au; Email: info@afca.org.au; Telephone: 1800931678 (free call)
In writing to: Australian Financial Complaints Authority, GPO Box 3, Melbourne, VIC, 3001.

Professional Indemnity Insurance

BR has in place Professional Indemnity Insurance which satisfies the requirements for compensation under s912B of the Corporations Act and that covers our authorized representatives.

DISCLAIMERS and DISCLOSURES

This report has been commissioned by Canterbury Resources Ltd and prepared and issued by RaaS Advisory Pty Ltd. RaaS Advisory has been paid a fee to prepare this report. RaaS Advisory's principals, employees and associates may hold shares in companies that are covered and, if so, this will be clearly stated on the front page of each report. This research is issued in Australia by RaaS Advisory and any access to it should be read in conjunction with the Financial Services Guide on the preceding two pages. All information used in the publication of this report has been compiled from publicly available sources that are believed to be reliable. Opinions contained in this report represent those of the principals of RaaS Advisory at the time of publication. RaaS Advisory provides this financial advice as an honest and reasonable opinion held at a point in time about an investment's risk profile and merit and the information is provided by the RaaS Advisory in good faith. The views of the adviser(s) do not necessarily reflect the views of the AFS Licensee. RaaS Advisory has no obligation to update the opinion unless RaaS Advisory is currently contracted to provide such an updated opinion. RaaS Advisory does not warrant the accuracy of any information it sources from others. All statements as to future matters are not guaranteed to be accurate and any statements as to past performance do not represent future performance.

Assessment of risk can be subjective. Portfolios of equity investments need to be well diversified and the risk appropriate for the investor. Equity investments in listed or unlisted companies yet to achieve a profit or with an equity value less than \$50 million should collectively be a small component of a balanced portfolio, with smaller individual investment sizes than otherwise. The science of climate change is common knowledge and its impacts may damage the global economy. Mitigating climate change may also disrupt the global economy. Investors need to make their own assessments and we disclaim any liability for the impact of either climate change or mitigating strategies on any investment we recommend. Investors are responsible for their own investment decisions, unless a contract stipulates otherwise. RaaS Advisory does not stand behind the capital value or performance of any investment. Subject to any terms implied by law and which cannot be excluded, RaaS Advisory shall not be liable for any errors, omissions, defects or misrepresentations in the information (including by reasons of negligence, negligent misstatement or otherwise) or for any loss or damage (whether direct or indirect) suffered by persons who use or rely on the information. If any law prohibits the exclusion of such liability, RaaS Advisory limits its liability to the re-supply of the Information, provided that such limitation is permitted by law and is fair and reasonable.
