BetMakers Technology Group

PointsBet deal highlights Global Racing Channel plan

BetMakers Technology Group (ASX:BET) is a B2B software services business focussed on servicing the wagering market and race operators globally. The company's technology and systems are used by every racing authority in Australia and most of the major online bookmakers. BetMakers is not a gaming company, it is a technology company that is facilitating commercial opportunities for racing authorities, rights holders, and corporate bookmakers while providing an improved racing experience for punters. We see opportunities for the company to further leverage its fee for service offerings and to expand its footprint globally with the development of its Global Racing Network (GRN) and Global Tote platforms. The PointsBet (ASX:PBH) deal announced today goes to the heart of the company's GRN strategy with BET providing its racing channel with more than 2,000 live streamed races per week from the US, UK, Ireland, Mexico and Canada together with customised pricing technology for PBH to offer to its wagering customers.

Business model

BetMakers operates a SaaS style model for its Racing Data and Informatics platforms: Global Betting Services and DynamicOdds. Racing bodies and bookmakers pay a monthly recurring fee for access to the platforms with contract periods usually of 3 years' duration. We estimate that 80% of FY19's \$6.2m in revenue was generated under the SaaS model. BetMakers also generates revenue from the content distribution deals it has in place with international racing authorities such as US Greyhounds and US Racing and UK Greyhounds which are more aligned to share of turnover. Over time we expect the SaaS revenue share to average 75% as the company expands its racing data and informatics platforms and new integrity platforms in both Australia and offshore.

PointsBet deal

BET will supply live vision, data feeds and customised pricing technology to the PointsBet Racing Channel which will be available on the company's website and App. BET will deliver up to 2,000 races per week from the US, UK, Ireland, Mexico and Canada to the channel. BET has revenue sharing arrangements with the rights holders in these countries and will operate on a revenue share of turnover. We have highlighted the business strategy in our recent initiation report, Embedded in the DNA of Racing.

Base case valuation is \$0.22/share

We use the discounted cashflow methodology to value BetMakers, arriving at a base case valuation of \$0.22/share, fully diluted for in the money options. Our \$101.8m base case valuation is generated from a WACC of 14.0%, terminal value 2.2% and a CAGR of free positive cashflows from 2020 of 38.5%. Our terminal value accounts for \$0.12 of our valuation. Our forecasts and valuation are based on our expectations for further industry adoption of the platforms. In our view, demonstrated success with the strategy and delivery of FY20 guidance should underpin BetMaker's share price performance.

Share price performance (12-months)

Upside Case

- Embedded in the racing clubs' integrity systems
- Strong relationships with corporate bookmakers in both Australia and UK
- Opportunity to leverage relationships to develop its Global Racing Network and potentially the Global Tote

Downside Case

- Dependent on volumes, clipping a very small portion of the wager
- Sensitive to regulation
- Potential backlash from incumbent totalisers

Catalyst

- Confirmation that FY20 guidance of \$10m net revenue and EBITDA of \$3.4-\$3.7m has been achieved
- Evidence that the Global Tote and GRN is being adopted by corporate bookmakers/racing bodies
